FSE 512

Tailor-made radio technology for up to 12 black / white functions!

Top features:
- DECT!
- radiomatic® infrakey!
- Tandem operation!
- Worldwide capabilities!
- ... and much more!

Quality in Control.
**Highlights:**

**DECT (optional)**
This completely automated technology ensures radio control without frequency conflicts. Manual frequency switches are no longer necessary.

**radiomatic® infrakey (optional)**
With this option, an infrared connection between the transmitter and the receiver is necessary to power on the system. This protects the operator from unintended crane / machine movements.

**Tandem operation**
With the tandem operation of two or more cranes, long and bulky goods can be transported safely.

**Worldwide capabilities**
With its clever power supply (42 – 240 V AC), the FSE 512 can be used in many different applications around the globe.

**Multi-Receiver-Concept MRC (optional)**
By simultaneously using several receivers on one crane, trailing cables can be reduced to a minimum. This saves time and money!

---

**Connections:**

- Cable glands.
- Optional: Harting plug (Han 16).

---

**Applications:**

Diverse cranes, lift equipment and machinery.

---

**Further details:**

- 12 black / white commands + E-STOP + infrared relay.
- E-STOP: PL d, category 3 according to EN ISO 13849-1:2008.*
- Power supply: 42 – 240 V AC (worldwide capabilities).
- Robust plastic housing, protection class IP 65.
- Dimensions: 165 x 165 x 70 mm (6.5 x 6.5 x 2.8").
- Weight: approx. 1.5 kg (approx. 3.3 lbs.).
- Convenient snap-in mounting device.
- Further options: catch-release, internal antenna.
